BEEKEEPING AT CTJS

BY QARNAYN

HOW DID I PLAN IT?

- First I did all the research that I needed on: bees, on apiary's on hayfever and natural medicine. I did this by looking on Google and asking different questions like how would this benefit our community, how much does it cost to set up an apiary. I gathered all the information. Next I compared apps I could have used to present my findings on, such as : Google Docs, Google Slides, Presentation or Power Point. I chose Power Point because it seemed more efficient and easier than the others. Finally I put it together and present it to you here!

MY GOAL

- My goal is:
- To increase bee population on the Isle of Dogs, because bees are endangered.
- Encourage the local ecosystem
- Fight hay fever
- Have an apiary at CTJS.
- Train all students to become bee keepers by the time they leave CTJS

5 BENEFITS

There are many benefits to beekeeping, here are just 5:

1)A lot of students suffer from hay fever and local honey can help as a natural medicine.

2)Students could be sent home with a pot of honey to enjoy.

3)It would also benefit everyone because students would leave the school with a beekeeping qualification/certificate.

4) We could sell the honey to the local community: It would raise money for the school, so we can buy resources for class.

5)Children would love it!

COSTINGS

I've done some research into how much it would cost to set up an apiary at CTJS. This is what I've found.

- We can start it off by having one hive and run a test with a small group of children, to see what the running costs are and how well we can manage.

Bee hive x1=£115.00 Ebay

Bee keeping suits (£25.99 per suit) x 10 = £259.90 Ebay

Total start up costs = £374.90

Next steps:

We will need to find out how much it costs to buy the queen bee.

Mudchute Farm have an Apiary, and we can ask them for advice.

THANK YOU FOR WATCHING!

- I would like all the children in 5 Sunshine who agree with me, to sign the end of this presentation, so that I can give it to Ms Bruce and she can decide if this idea can go forward.
- Please support me with your signatures! ☺
